

PERENNIAL CARE

deer and rabbit resistant perennials and shrubs

Wildlife can be kept away from perennials with harmless repellent options that use scent and taste as a deterrent. Options include foliar sprays like Hot Pepper Wax, Liquid Fence, and Repels All; granular options like Shake Away Coyote or Fox Urine; and systemic options like Repellex, available in both tablet and granular formulations. Fencing and other physical barriers are also a foolproof way to keep critters out of the garden. Animal resistant does not always mean animal proof.

Full Sun (6+ hours direct sun)

<i>Achillea</i> (Yarrow)	<i>Fothergilla</i> (Witch Alder)*
<i>Aconitum</i> (Monkshood)	<i>Gaillardia</i> (Blanket Flower)
<i>Agastache</i> (Anise Hyssop)	<i>Galium</i> (Sweet Woodruff)
<i>Alchemilla</i> (Lady's Mantle)	<i>Geranium</i> (Cranesbill)
<i>Allium</i> (Ornamental Onion)	<i>Geum</i> (Avens/Prairie Smoke)
<i>Amsonia</i> (Bluestar)	Grasses
<i>Anemone</i> (Windflower)	<i>Heliopsis</i> (False Sunflower)
<i>Artemisia</i> (Wormwood)	<i>Hibiscus</i> (Hardy Hibiscus)
<i>Asclepias</i> (Milkweed/Butterfly Weed)	<i>Iberis</i> (Candytuft)
