

HOUSEPLANT watering guide

Mist
humidity-
loving plants
(like calatheas)

Learn
your plants'
watering needs

Water larger plants
in the tub or shower

never
let plants
sit in
standing
water

Choose
pots with
good drainage

use a
moisture
meter

Let excess
salts evaporate
24-48 hrs

group
plants to
increase humidity

bottom-water
african violets

use your
finger tip to
test soil for
dryness
(2-3 in. below
the surface)
